

Accessories for opening aluminium windows

NEW

X-100

TILT & TURN MECHANISM

10

YEARS GUARANTEE

Quality, Security, Strong Brand Name

QUICK INSTALLATION

without any further time-consuming processes

HIGH CORROSION RESISTANCE

even in the most demanding environment

SIMPLE INSTALLATION

components ready for direct installation

BURGLARPROOF

resistance in violation

HIGH LOAD RESISTANCE

based on tensile strength laboratory tests

EXCELLENT MATERIALS IN ALL COMPONENTS

selected following multiple laboratory tests

VARIETY

of cremon handles

Complete package in a box

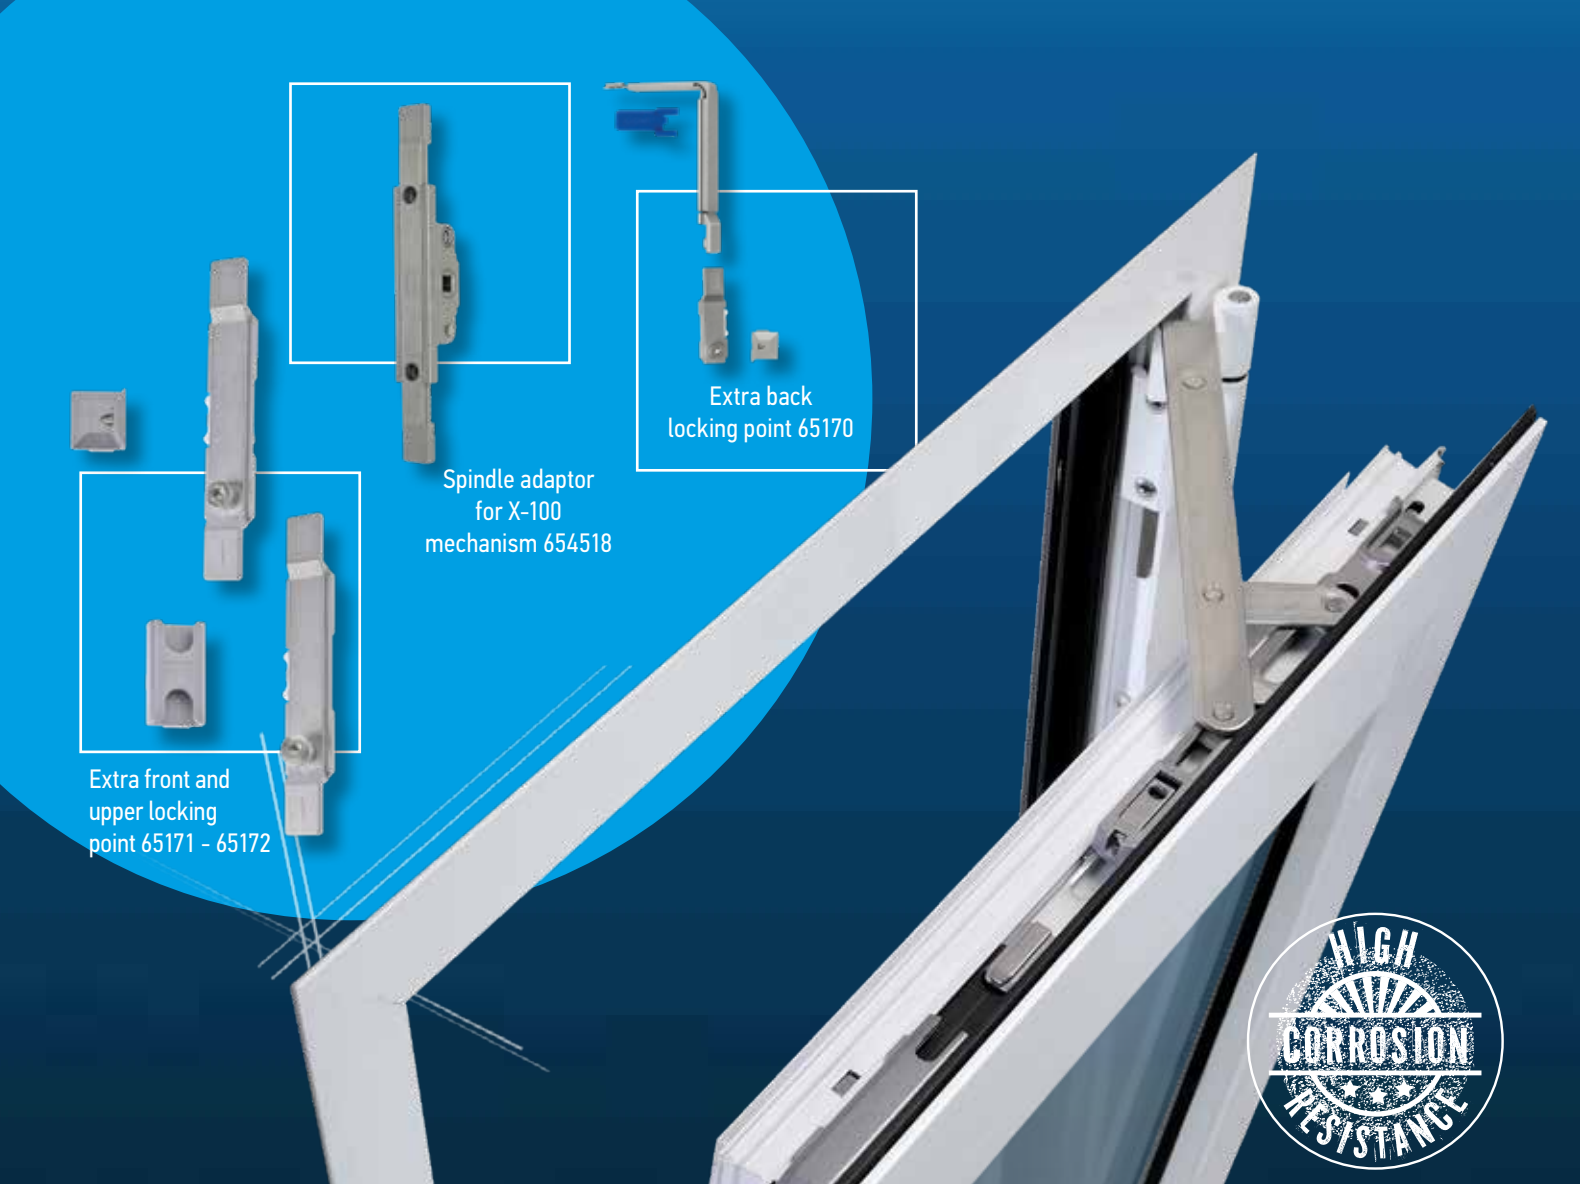

The X-100 tilt & turn mechanism is used in CAMERA EUROPEA aluminium profiles. Its parts are made of zamak and aluminium. Specifically:

- Stainless steel tilt arm
- Adjustable lower hinge (left-right/up-down)
- Powder coated aluminium handle with antimicrobial protection
- Powder coated hinges
- Zinc alloy components with zinc nickel anti-corrosion treatment

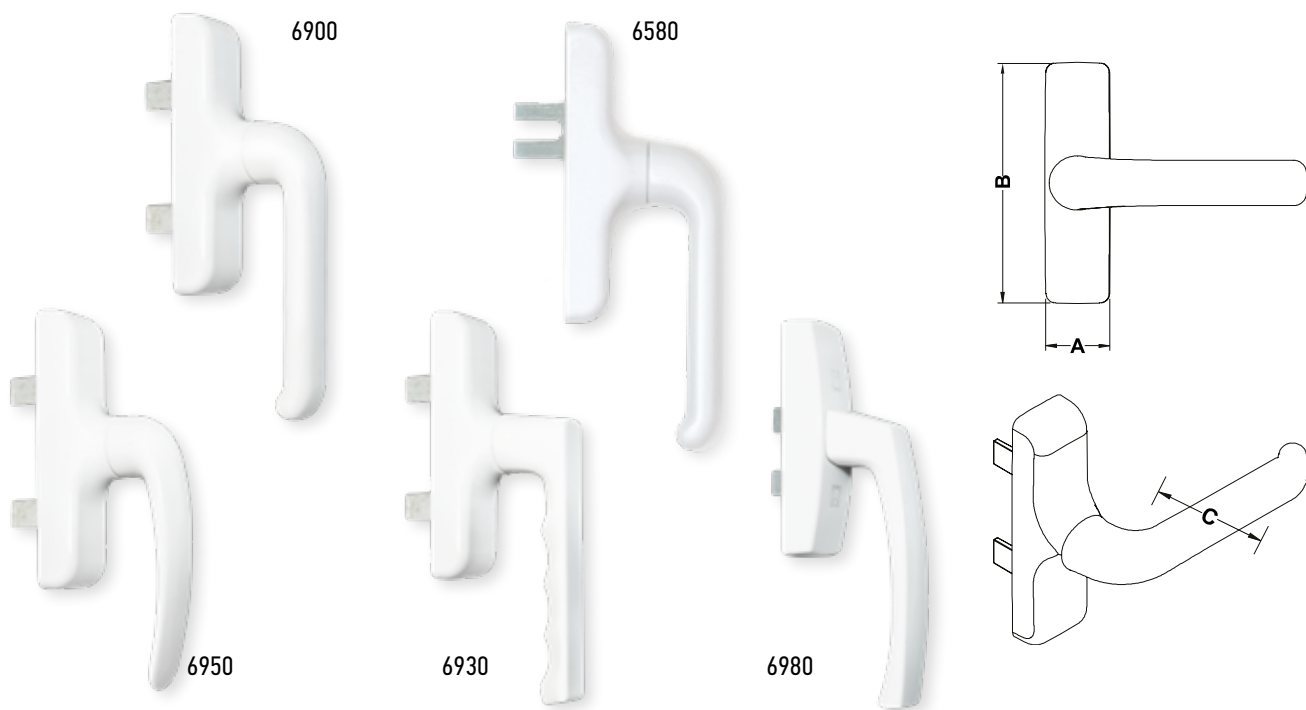

- Plastic parts made of special material for long life time

The X-100 tilt & turn mechanism is the safest solution for single as well as double leaf aluminium profiles. It has adjustable metal locking sliding latches. The mechanism has been tested at DOMUS Quality Laboratory according to European standards.

It has high durability after numerous operation cycles and high load resistance against additional force. X-100 has easy installation and adjustment for excellent and smooth operation.

	NEW 65418X	X-100 Mechanism with spindle adaptor	830	15	Silver & Zinc Nickel
	NEW 654518	Spindle adaptor for X-100 mechanism	190	50	Zinc Nickel

Cremon is suitable for all hinged aluminium profiles and it is available in white and black electrostatic paint finish. It is available in 4 different shapes (classic, rectangular, oval and square), compatible with X-100 T/T mechanism.

It is also available in more than 300 special colors upon request. It's the safest and most premium quality solution for hinged windows.

The stainless steel (INOX 304) security plate and screws offer perfect function. It is easily reversible to fit to right or left handed hinged aluminium frames, with an upward and downward security locking.

For the electrostatic paint finish of the accessories, a polyester powder is used, following the **ISO 9001** certification and Antimicrobial certification as well.

SLIDING LATCHES

Simple and mechanical sliding latches are suitable for left or right handed windows. They are available with plastic or metallic nests and with adjustable ends for **CAMERA**. Very easy to install and ideal for all hinged aluminium profiles, simple and mechanical sliding latches are the safest solution for double leaf aluminium frames.

The simple sliding latches have plastic parts made of special Polyamide material for extra strength, while the mechanical ones have metallic locking slides with adjustable ends and a simultaneous top and bottom locking with single motion for maximum durability.
