Handles with Metallic Escutcheons | Plate Handles | Inox Handles | Handles for Windows

## HANDLES WITH METALLIC ESCUTCHEONS

Handles with metallic escutcheons are suitable for all aluminum profiles and for wooden doors. They are available in single or set, with or without escutcheons. They have excellent functionality, easy installation and can be installed on right or left doors without any modifications. They have metallic base with 4 fixing screws. Their finish is electrostatic powder coating.

The Architectural handles (art.61XX) are available in 3 different handle shapes (rectangular, classic and oval). The Allen key fixing makes them sturdier by "unifying" the handle with the square pin. Their design match perfectly with the rest of DOMUS products, for opening and sliding windows, for better aesthetics. They are available in more than 300 special colors upon request.

The Classic handles (art.63XX) are suitable for "light" profiles. Their shape is oval and the "finger" touch at the bottom side of the handle makes their use easier.

CODE	DESCRIPTION	A (mm)	B (mm)	C (mm)	D (MM)	WEIGHT (gr)	ITEMS/BOX	FINISH

## PLATE HANDLES

Plate handles are suitable for all aluminium profiles as well as for wooden doors. They have excellent functionality, easy installation and they can be installed on right or left doors. They have metallic base with 2 fixing screws. Their finish is electrostatic powder coating.

The Architectural handles (art.61XX) are available in 3 different handle shapes (rectangular, classic and oval). The Allen key fixing makes them sturdier by "unifying" the handle with the square pin. The tubular spacers that are included in the packing are recommended for heavy duty doors or for doors of highly frequent access. Their design matches perfectly with all DOMUS products for opening and sliding windows, offering high aesthetics. Upon request they are available in more than 300 special colors.

The Classic handles (art.63XX) are suitable for "light" profiles. Their shape is oval and the "finger" touch at the bottom side of the handle makes their use easier.

CODE	DESCRIPTION	A (mm)	B (mm)	C (mm)	WEIGHT (gr)	ITEMS/BOX	FINISH
6145LE	Set of handles with plate, white	213	31	59	600	20	WHITE
6145ME	Set of handles with plate, black	213	31	59	600	20	BLACK
6165LE	Set of handles with plate with rectangular shape, white	213	31	64,5	590	20	WHITE
6165ME	Set of handles with plate with rectangular shape, black	213	31	64,5	590	20	BLACK
6340LE	Set of handles with plate, white	200	26	59,5	360	20	WHITE
6340ME	Set of handles with plate, black	200	26	59,5	360	20	BLACK
61813	Handle's square pin 130mm	-	130	-	-	20	-

## INOX HANDLES

INOX set of handles is suitable for all aluminium profiles and wooden doors. They are available in single or set, along with the escutcheons. They have metallic base with 2 fixing screws and the Allen key fixing makes them sturdier by "unifying" the handle with the square pin. They have excellent functionality, easy installation and are made of stainless steel AISI 304.

### Why to choose INOX?

INOX is the most suitable material due to its high corrosion resistance to extreme environmental exposure such as sea contact or atmospheric pollution.

CODE	DESCRIPTION	A (mm)	B (mm)	C (mm)	D (MM)	WEIGHT (gr)	ITEMS/BOX	FINISH
6000XE	INOX Set of handles with escutcheons	60	30	62	58	480	20	INOX
6000XR	INOX Single handle with escutcheon right	60	30	62	58	375	20	INOX
6000XL	INOX Single handle with escutcheon left	60	30	62	58	375	20	INOX

## SECURITY ESCUTCHEON

The security escutcheon is suitable for all DOMUS locks for aluminium or wood (except Triaina lock) and offers a burglar proof cylinder protection. The disassembling is possible only from the inner side.

Security escutcheon is not suitable for art: 90120 (20mm Mortise lock), 905PL, 90545, 9054C (Triaina).

## HANDLES FOR WINDOWS
