Plisse Sineklik ve Perde Sistemleri

[www.plisseri.com](http://www.plisseri.com)

Plisseri Fly Screen and Plisse Blind Systems was established in 2011 in Istanbul. Today, Plisseri has a factory of 12.000 m<sup>2</sup>; produces almost all of its components, such as pleated fly net, pleated curtain fabric, accessories, strip profile, in an integrated manner within its own body. It is one of the few companies in the world that can fold a servo system up to 350 cm. With its plisse technology and experience, it continues to serve the world with two different pleating systems.

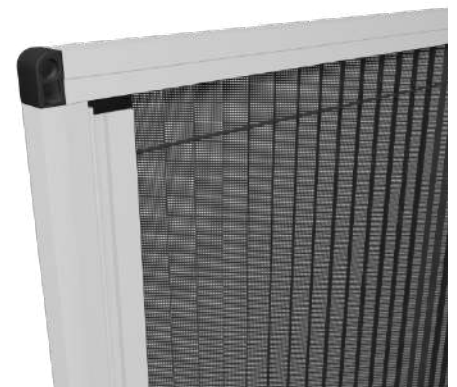

## PLEATED FLY SCREEN 28MM LARGE SERIES

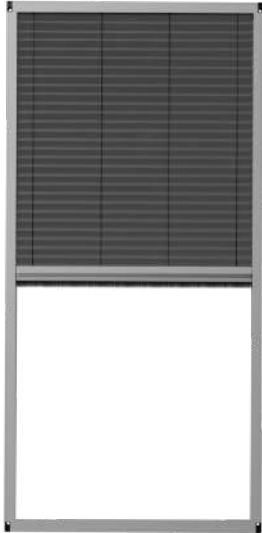

Combining aesthetics and easy use, the 28 series has succeeded in being a solution product in every field where pleated mosquito nets are needed with its 28mm width. Plisseri as the patent owner of rope fixing from corner wedge; With this feature, it not only provides ease of manufacture, but also provides cost savings. Our products, in which polyester tulle is used to be compatible with all weather conditions, provide full insulation thanks to hair wick and magnet closures.

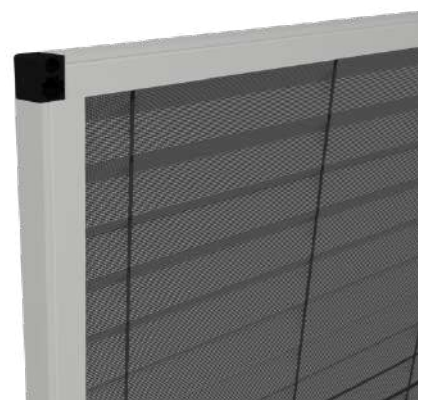

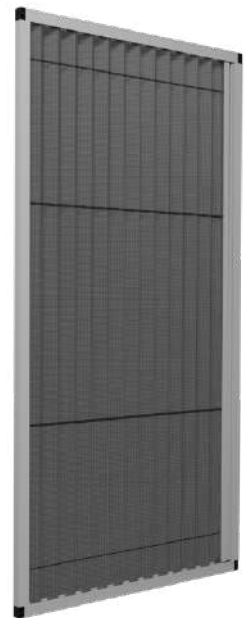

Thanks to the threshold profile that can adapt to the system, it prevents unwanted foot tripping in areas of intense use and combines aesthetics and functionality.

## PLEATED FLY SCREEN 18MM SLIM SERIES

With its 18mm frame width, it has eliminated the mounting problem between the shutter and the window. It is a product that calculates the distances between the new generation shutter systems and the joinery and is designed accordingly. The mass production and cost advantages offered by thread fastening from the corner wedge are also valid for the 18 series. Thanks to its aesthetic appearance and easy use, it is one of the most preferred products of recent years. It provides full isolation thanks to its highly compatible polyester tulle, bristle wick and magnet closures. Thanks to the threshold profile that can adapt to the system, it prevents unwanted foot tripping in areas of intense use and combines aesthetics and functionality.

## PLEATED BLIND SYSTEMS

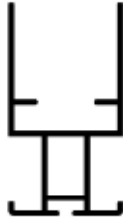

Plisseri Pleated Blind is a 'solution curtain' that offers comfort, aesthetics and quality to its users. Unlike the curtain systems we are used to, it provides heat, light and sound control in your living spaces. Plisse pleated curtains can be used easily in your home, office, winter garden, glass balcony, automobile and boats. Our products are produced from 1st quality fabrics and each one is washable. With its easy-to-use mechanisms, it allows you to maintain the comfort of your home in a healthy way.
